ACT IT OUT- TOPICS

DISCUSSION QUESTIONS

1. How can using clues help us talk to other people? What clues can you notice about people in the room right now?
2. How can we tell when someone isn't interested? What should we do if we recognize someone isn't interested in what we're talking about?
3. How do you know the right time to shift the conversation? Are there any times you might have to shift the topic quickly? What would you say in that instance?
4. How does bragging and only talking about yourself make other people feel? Why would we not want other people to think we are bragging?

SUGGESTED USE

First, watch each scene to model the behaviors and actions that will be role played. Then, select two people to role play and assign them to Person A and Person B. Read each scenario on screen to act out. Pause when you see the Act it Out logo on screen and get ready to role play!

The rest of the group will rate the actors based on their performance. Did they portray the emotions given? After the role play is finished there will be a discussion. Use the questions above to guide the discussion.

When discussion logo is shown  , we suggest pausing to discuss facial expressions, tone of voice, and positions of bodies & eye contact. Don't hesitate to rewind the video and watch multiple times.
